

Matching Zero Or More Repetitions

*

The * tool will match zero or more repetitions of character/character class/group.

In the above image, the Regex Pattern is matched with the Test String.

For Example:

- w*** : It will match the character **w** 0 or more times.
- [xyz]*** : It will match the characters **x**, **y** or **z** 0 or more times.
- \d*** : It will match any digit 0 or more times.

Task

You have a test string *S*.
Your task is to write a regex that will match *S* using the following conditions:

- S* should begin with 2 or more **digits**.
- After that, *S* should have 0 or more **lowercase letters**.
- S* should end with 0 or more **uppercase letters**

Note

This is a regex only challenge. You are not required to write any code.
You have to fill the regex pattern in the blank ().
