# Matching Specific Characters

[]

The character class **[ ]** matches only one out of several characters placed inside the square brackets.

In the above image, the Regex Pattern is matched with the Test String.

Task

You have a test string S.
Your task is to write a regex that will match S with following conditions:

- S must be of length: **6**

- First character: **1** , **2** or **3**

- Second character: **1** , **2** or **0**

- Third character: **x** , **s** or **0**

- Fourth character: **3** , **0** , **A** or **a**

- Fifth character: **x** , **s** or **u**

- Sixth character: **.** or **,**

Note

This is a regex only challenge. You are not required to write any code.
You have to fill the regex pattern in the blank (_____).
